You, you love to use the word love all the time
and it scares me
im not sure why,
through a phone is no way to love you
you dont seem to mind
i wish my eyes and my mind will decide that im alive
so i could hear my heart tell me how i feel
you, you love to use the word love all the time
and it scares me
im not sure why
through a phone is no way to love you
you dont seem to mind,
i wish my eyes and my mind will decide that im alive
so i could hear my heart tell me how i feel
