Visit "[Today Is The Day](#)" on MotoLyrics.com

Well, today is the day to act like today is your day, and
you will be surprised that it is, that it is.
Yeah, today is the day to act like today is your day, and
you will be surprised that it is, that it is.

Now if that grass looks fun to roll in, then roll in that fun
grass.
Look at that bird, he could fly, don't you wish you could
fly?

Well, today is the day to act like today is your day, and
you will be surprised that it is, that it is.

Turn up the sun, hotter, brighter, make that yellow guy
huge!
The bigger, the hotter, the wetter, the better it is!

Now if that grass looks fun to roll in, then, roll in that
fun grass.
Look at that bird, he could fly, don't you wish you could
fly?

Well, today is the day to act like today is your day, and
you will be surprised that it is, that it is.
Woo!

Well, today is the day to act like today is your day, and
you will be surprised that it is, that it is.
Yeah, today is the day to act like today is your day, and
you will be surprised that it is, that it is.
Whoa!
