Happy Sweet 16 the candle light was just right and the
night was going just fine
Under the hot blue moon we ate some fruit and we
jumped in the pool
After you got out your body looked so great I just had
to have a touch
Then I fucked it up with my stupid clumsy hands

And you said don't worry about it, it happens all the
time it's just something you've gotta learn
And I said I love you but I'm not the kinda guy who likes
to fail at anything

And I don't want you to feel obligated to do things you
don't want to do
Just want you by my side and watch the clouds roll by
Just love me for how I am not what I want or what I'll be
Just want you laying next to me, I'm walking on fire

I'm always depressed and you always seem to want to
work it out with me
I know you get mad sometimes when I just don't wanna
change
Why do you even stick around when everything I do is
just put shit down on you
I'm glad you do 'cuase if you didn't I would never see
the day

Just take my hand we'll walk along the beach

I'm walking on fire, baby, it burns for you
I don't know what to say or do when I'm around
You make me feel so happy, so happy I never want to
go
You know I'm gonna hold you here for as long as I
might, as I can
