Sweet insanity

Walking in circles
burning the circus
talking about something
cutting my arm
bleeding in the curtain
Feeling so bad
it makes me want to laugh

Sweet insanity
don't leave me here
in this place where
are all my fears *2

Blame on the false one
talk about someone
treating people bad
cause they're black
bleed on myself
who is the best?
people that just love themselves

Sweet insanity
don't leave me here
in this place where
are all my fears *2
