The Confession

I wish that I was one with you
Wherever you'd go,
I'd go too!
Follow your every move and
talk with everybody you'd talk to!

You...you treat me bad
And every time we talk about this
you get mad...
I think that we should sit and talk about all of this
how about you?
The hell with you, I guess we're through
I'm moving on and so are
You
You...you treat me bad
And every time we talk about this
you get mad...

And I, I wish I had, another subject for this conversation
But you're the only problem that I have.

You...you treat me bad
And every time we talk about this
you get mad...
And I, I wish I had, another subject for this conversation
But you're the only problem that I have. (x2)

You...you treat me bad
And every time we talk about this
you get mad...
And I, I wish I had, another subject for this conversation
But you're the only problem that I have. (x2)
