I'm your nightmare
Longing just for you
You can hear my breath
And I can hear yours too

Like a creeping shadow
Hiding from the day
Wait until the darkness
To take your life, so pray

You cannot run, you cannot hide
I gonna catch you if you try

You're longing for that morning
For that special light
It make you feel safer
But it'll be another night

Your blood is boiling
It makes you paralyzed
You are my only
You are my sacrifice

You cannot run, you cannot hide
I gonna catch you if you try

Come, come to me, I have to sacrifice you
Change your heart, change your soul
So I can complete [Incomprehensible]
Well, I'm in pain that's affecting my brain
Oh, I will take your life
