Forty tons of armored death  
Still is rolling  
Onward through their trenches  
Damnation bell is tolling

A war without survivors  
Destruction is in hand  
Morbid mad mutations  
Walking desolated land

In the end mankind  
Pay the price  
Of power hungry nations  
And general lies

War without end  
War  
War without end  
War, war, war

Killing fields that never ends  
Open graves remain  
Death lurks in all that lives  
A barren tomb for us is calling

Forty tons of armored death  
Still is rolling  
Onward trough their trenches  
Damnation bell is tolling

In the end mankind  
Pay the price  
Of power hungry nations  
And general lies

War without end  
War  
War without end  
War, war, war  
War

War without end

War  
War without end  
War, war, war
