dont wanna know what your talkin bout  
dont wanna know that your goin out  
with some guy you met on the highway

dont wanna know what your feelin now  
dont wanna know that he asked you out  
i dont care, go do what you like because its your life

(chorus)  
i love you, i love you  
but i just cant take the things you do  
if i know you, if i know you  
then you would stop  
till then ,leave me alone

dont wanna know what your talking bout  
dont wanna know that your goin out with some guy you  
met on the highway

its your life

(chorus X 2)
