No pain, no feelings, no sense of time. I strive for the magic. Unite with the people, wherever they are.

Is reality a dimension I've just invented? Circling my mind like a dark dream.

When I dance, I love myself in the DJ's hands to take me to a journey - the unconscious journey to reality.

The last thing I remember is being in a really small place. I was flying or floating in warm liquid. I couldn't see anything, but I was sensing things. There was no pain, there were no feelings. So I guess that, in a way, I was happy.
