### Verse

They said you're back and they say you've been  
down

I thought I'd talk to you now  
I've got the music turned down  
I've got my thoughts turned up loud

I stopped to talk and they said you been bad  
You said you wish I'd come back  
And its fine to talk  
But I refuse to be your rock

### Prechorus

I don't want to waste any time  
And all that I say are lies

### Chorus

And I'll sing the same song, and I'll do the same  
things that I've done all alone  
And I'll sing the same song, and I'll do the same  
things but I'll do them all wrong

### Verse

I got your call and they said its too late  
I should have stopped by on my way  
And you said you gave in  
Sometimes its time to cave in

You said your back and its for the last time  
I built your city on my spine  
But my legs are tired  
And I'm not strong enough to save

### Prechorus

### Chorus
