(Look at me look at me)
You won't look at me
just that chick girl down the street
what's wrong with me
absouluty nothing
I don't care what you say
but this ain't workin out for me
no no no

look at me
whatcha see
is it what you want
I don't know how this goes
but I'm sure that you need to look at me

nothin left in the world
just me you and that dang girl
i wanna hurt I'm out to kill
if you will
back me up I'll love you

look at me
whatcha see
is it what you want
I don't know how this goes
but i'm sure that you need to look at me

look and see
Skin deep
what's the deal
that dang girl sure ain't
real I'm out to hurt out to kill so so so

look at me
whatcha see
is it what you want
I don't know how this goes
but i'm sure that you need to look at me
(spoken) Dang girl are you dead
