"One Day"

Steal a car to drive it down
To loose the rage I've gott o the bones
What to do with these days
When you won't to be mine

One day you will be mine
One day you will be mine
One day you will be mine
One day you will be mine

Bad tempered all the time
A bottle of whiskey is filling my mind
But cannot make me forget
That you won't to be mine

One day you will be mine
One day you will be mine
One day you will be mine
One day you will be mine

One day you will be... Why don't you wanna be...?
One day you will be... Why don't you wanna be...?
One day you will be... Why don't you wanna be mine?

Why don't you wanna be mine?

(Smoke some shit my brain gets high
Makes me feel as I could reach the sky
This condition convinced myself
That one day you will be mine)
