Don't forget the scarf I gave you
You're gonna need it when the cold sets in
I know you'll want the leather sofa
Now that you've finally got it broken in
Go ahead and take the table I just painted
That stuff was really never you and me
If there's nothing left in this room tomorrow
I'll still have all I need
(chorus)
You can't take the time we drove to Denver
Or that night we went out dancing in the park
You can't take the Christmas in New England
Or that feeling I still get in my heart
Whatever else you take is fine
'Cause I know there was a time
You loved me back
And you can't take that
I can help you pack your suitcase
But that ain't really what I wanna do
I'll go along with this decision
But don't you know that it kills me too
I wouldn't trade the stars for all the memories
I'd do it all again in a flash
I'm stronger than I was for having loved you
And you can't take that
(chorus)
Whatever else you take is fine
'Cause I know there was a time
You love me back
And you can't take that
You can't take the time we drove to Denver
