[chorus - Big Sound rappin' (outro: sign')]

Hey girl, this rap is for u

You'll be my queen J., I like the way

(J. want to dance?)

On balance we touch the sky

I'm your Bad Boy!

(J. want to dance?)

[Big Sound]

Girl, I like it when I see a smile on your face

Jets flyin' in tha sky, that love can't escape

Pull your face in my

Lay your head on my shoulder

I'm your soldier! (haha)

Runnin' through the park I think about you

I just want to be around you

Be my girl tonight

I'll take you to a club tonight

I'll take you to a club, I'm a lil' "California love"

Take my hand

I'm risking you, confrontin' gang

First tattoo, I recorded his name

In my skin, this feelin' will not erase

I owe my success to you and my family

With you I'll fly and live a fantasy

It's a love song

We two will live many dreams

Sunset in Brazil, will see better dayz

I like your way, no matter what you say

Fuck those people who are talkin' shit

Damn, leave us alone

We'll go for days no so good, let's go home

I just want good dayz
I just love one J. no two J's
She knows this's the only girl in my life
Big Sound, is still in thug life
Only took the time to run the enemy
J. you from today will be the family
I still make money, girl gracefully
I'mma Bad Boy paperfully
Feel it? It's the wind in the face
The sense of freedom is sexy
We're in this life to relax

[Big Sound]
I just want to express this love
Put the headset, put the volume up
Enter me in this club
I'll be a rap superstar for you
This song is for you
Necklaces of pearls are for you
My heart is for you too
Southside! This is time
Let's all fly in tha sky
Open Hennessy, release smoke
Girl relax is one note
It's your crystal Benz, the Big smoke!
Life has to go!
What will your next surprise, oh no!
I'll invade your dream, you'll be my queen
We'll prevail in the mansion, tryin' to steal my cream
It's a love song
