There will be a day
When I look down to your grave
And as you look up
You will see
Not a single tear from me

I had a dream I back away from you
Smartest thing I'll ever do
And all the lies that struck me in the back
Every way, yeah
(A knife would've been okay)

And memories remain
All that time we threw away
Now remember what you said
You will have my love always

I never dreamed I'd back away from you
Smartest thing I'll ever do
And all your promises went out the door
Don't look back
You won't hear me say

Don't run in the morgue, doll
Stay with me always
We won't last long
And I'm so sorry
Don't run in the morgue, doll
Stay with me always
We won't last long
And I'm so sorry
You're gone

Don't run in the morgue, doll (One day, you can, may
console me)
Stay with me always (That you always want to hold me)
We won't last long (You say no that I don't need you)
And I'm so sorry (Good-bye, I don't wanna see you)

I never dreamed I'd back away from you
Smartest thing I'll ever do
And all your promises went out the door

Don't look back
You won't hear me say

Don't run in the morgue, doll
Stay with me always
We won't last long
And I'm so sorry
Don't run in the morgue, doll
Stay with me always
We won't last long
And I'm so sorry
You're gone
(And I'm so sorry you're..)
