You can't say
"Not my friends"
And I remember everything I did to you
We lost it and fighting
Remember you crying

You, you want me
You gotta realize that
It all comes back down to me
It's not me
You gotta realize that
It all comes back down to me

You fairytale girl
This ain't your world
I never cared or bothered to look back
Wipe your tears off your cheek
Remember, we're young and
We're just having fun, yeah

You, you want me
You gotta realize that
It all comes back down to me
It's not me
You gotta realize that
It all comes back down to me

You, you want me
You gotta realize that
It all comes back down to me
It's not me
You gotta realize that
It all comes back down to me
All comes back down to me
All comes back down to me
