If I could take this back
Wouldn't you believe
I could change my ways easily?
Don't speak
See me

I made a choice to walk
Down another road
And I won't look twice, no
Don't speak
See me

We will dream and make-believe
And our time has been foreseen
Days will come and nights will go
Fading fast
We won't let go our dreams

Uh, we will dream and make-believe
And our time has been foreseen
Days will come and nights will go
Fading fast
We won't let go our dreams
