It's time to hide
Her dad's too big
I'm half his size
But where to run?
He'll hunt me down
And use his gun

Wedding bells and honeymoon
And I know that I am doomed
Oh God, won't you look down on me?
Please take me up with you

Why can't I see
I'm in too deep?
Now I'm engaged
She'll say "I do"
And then I'll thank you
When I'm screwed

Wedding bells and honeymoon
And I know that I am doomed
Oh God, won't you look down on me?
Please take me up with you

Wedding bells and honeymoon
And I know that I am doomed
Oh God, won't you look down on me?
Please take me up with you

Wedding bells and honeymoon
And I know that I am doomed
Oh God, won't you look down on me?
Please take me up with you

Wedding bells and honeymoon
And I know that I am doomed
Oh God, won't you look down on me?
Please take me up with you
