"Bring It Back"

Visit "[Bring It Back](#)" on MotoLyrics.com

You will be gone
When I lose my song
I sing on and on
I try to keep things strong
You took my mind
I hope you won't let find

Anything that I learned from you
And everything that I wanna do
I just wanna bring it back to you
I just wanna show you the way
Beter than Idid til today
Just because I want you to stay

It's time to see
We're meant to be
Just holdin' on
To where we belong

Anything that I learned from you
And everything that I wanna do
I just wanna bring it back to you
I just wanna show you the way
Beter than I did til today
Just because I want you to stay

You will be gone
When I lose my song
I sing on and on
I try to keep things strong
