"Look For My Love"

If you wanna leave look for my love!
If you gonna find it then I will give it up
If you wanna leave look for my love!
Just show me and I'll give it up

You don't wanna fake it
You just want to make clear
That you've just had enough
Of that kind of love

And I don't wanna break it
But I will let you go
If you promise to find
Some other, better kind

But how did get that far?
Much too far

If you wanna leave look for my love!
If you gonna find it then I will give it up
If you wanna leave look for my love!
Just show me and I'll give it up

I hope you'll never find it
Hope you come back to stay
When it's time to find out
That you can't do without
