"Miracles"

Visit "[Miracles](#)" on MotoLyrics.com

You don't have to look hard for miracles
right outside your door.
But it seems there's only trouble,
in our lives, what we are searching for

there are things we just don't see
because we don't want to believe
we shouldn't close our eyes
there'll be no change if nobody tries
to give a little ray of light

Refrain
and beneath all the sorrow
there's a child that smiles
hope for a new tomorrow
guarded by a ray of light
and If the winds are changing
if the ice just breaks
a chance for a better future
a ray of light is all it takes

sometimes we are so helpless,
we don't seem to find a way
giving hope and show we care for
the children, so each night I pray

that someday all of us
stand together to feel love and trust
that everybody learns to give
and we change the way we live
we all need a ray of light
Refrain

A little soul is out there
Feeling cold and lost
Not alone because you care
Not alone, not alone
