Word can be spoken, broken, hide the truth within  
How will I find out who you are?  
Would you let me in?

Where do you go to when noone  
Tries to catch your fall  
Would you be hiding from it all?

Show your mind  
The lovely kind  
Smiles I'll find within, within  
Someone took away from you  
What you were used to do, to do

What have you gone through?  
Who dared to take your confidence?  
You still believe in someone?  
Will you try again?

Time might heal wounds that someone  
Scratched into your face  
Open your hear but  
Be aware!

Show your mind  
The lovely kind  
Smiles I'll find within, within  
Someone took away from you  
What you were used to do, to do

Where are those hands that touched your soul  
Without permission?  
I'd like to break them!

Someone took away what you used to do  
Someone took away from you

Show your mind
