Another day will be gone  
another day for me to turn  
Another man is dying for the hunt  
the hunt you call it fun, he is no one  
another man is begging you for help  
you see his life like fun, he is no one  
Another tear falls from your eyes  
another laugh you cannot hide  
Another man steals all your joy  
he wishes to enjoy, he is no one  
another one is ready to begone  
the noose is waiting on, he is no one  
You think you can help me  
I don't need your help  
You think you can help me  
I just need myself
