Dream

//Intro//

Dream... jus dream!

ahh dream....It was only, only a dream.

A deam... It was only, only a dream.

//1st vs.//

Come on now lighten up there baby,
things arent always what they seem.

Open your eyes, wake up to reality,
it was only a dream!

(mmm hmm)

//CHORUS//

A dream... it was only, only a dream.(rpt.)

//2nd vs.//

No need to get all loud and rowdy,
no need to cause a scene.

Just you swallow your pride, and you walk away now
it was only a dream.

//bridge//

People dream of fallin, always wake up before they hit
the bottom,

baby why dont you wake up & do the same.

I dont need your sympathy, dont need your emotional
caligraphy,

baby wake up right now, it's only a dream.

//CHORUS//

//Guitar solo//
