"Away From You"

Visit "[Away From You](#)" on MotoLyrics.com

I'm waiting for the day
For you to dissappear
Because the light you shine on me
Blinds me when you are near

Don't wait another day
Just grab your shit and leave
Believe this is the last of this
And from this day I am free don't talk to me

Just find a way, away from you
Just find a way, away, a way from you

I guess i'll never see
Just what you thought of me
And you will never see
What i'll become just who i'll be don't talk to me

Just find a way, away from you
Just find a way, away, a way from you
