Your structure was not built to be denied  
Of all Earthly gifts from inside  
Your friends ask for your hand to guide  
Their hearts into a place they desire  
(You don't want to you don't need to)

You're showing signs that indicate  
That there's no one left to manipulate  
So you throw your answers down to the ground  
But nothing compares to what I have found

You burn your bridges from both ends  
But you're standing in the center  
Your bridges burn from end to end  
Fool, you're now alone falling

You fight just to sever another tie  
You think its the culling game of life  
You know but you keep asking why  
They will not come back when you fry  
(They don't want to they don't need to)  
You're showing signs that indicate  
That there's no one left to manipulate  
So you throw your answers down to the ground  
But nothing compares to what I have found

You burn your bridges from both ends  
But you're standing in the center  
Your bridges burn from end to end  
Fuck, you're now alone falling  
(Falling, falling)

My eye can't see  
My lung won't breathe  
My life won't be  
What you believe should be in fear

Now that you're one of a kind I bet you think you're free  
Now that you're one of a kind you can't spread your  
disease  
Now that you're one of a kind your ties are frayed  
aren't you afraid there's no one to see you burning

Motherfucker burn
