You're just a memory
Never my fantasy
How many more will there be
Before you realise

It can't be the last defect
To hold my hands around your neck
Take your last puny breath
Your lies live inside your mess

Now forever has been denied
I went down without a fight
How can I be so damn blind
It's my turn to learn your fucking lies

Jump to the next man and hide
I've already been there, inside
You've got nothing left, but lies
I've got everything so run and hide

I've fore seen
This in my dreams
A million tales
A million smiles
They were all fake
There's no denial
You love to talk
And condescend
This is the end

Now I know who the fuck you are
You can bleed out all my scars
And know that you won't go that far
You're just like your damn mother

I've fore seen
This in my dreams
A million tales
A million smiles
They were all fake
There's no denial
You love to talk

And condescend
This is the end
I have lost
The feeling of grace
Your toothy smile
Your block-head face
You're fucked up hair
Your ugly lace
You talk too much
Now hear my cries
I believed in all your lies

I wore your blood around my neck
To prove to you there's no neglect
But now I see what is left
A shattered vial full of regret
