I was born for the fight
I've been one out all of my life
No love, dead end town
Rock and roll never let me down

Smoking aces, I played my hand
Screamed hell for a rockin' band
School didn't amount to much

Join the Band
Join the Band
Join the Band
Join the Band

On the street, there's a law
Survival, law of the claw
I took evil in my arms
Fell victim to a fatal charm

Smoking aces, I played my hand
Screamed hell for a rockin' band
School didn't amount to much
