"A Virus On My Mind"

At times the virus of the mind gets to us all
But you must be strong
Through darkest of abyss, we close our eyes most
times
But you must find your way back home

I tried so hard to be what you need
But you wouldn't let me
Here's some simple reasoning
Life is what we want it to be
And even I will pray for the broken hearts that be
And those who slowly kill me

We can only stomach so much before we throw up
We can only stand in the fire for so long before we burn
up
It's all over and I know that I'll be fine
Anyway these bridges burn in time

Here's some simple reasoning
Life is what we want it to be
And even I will pray for those wounded hands that be
And those who slowly kill me

Before I fall asleep I want to know
That you are listening to me
I want to lay my head to rest
And know you're here with me
