With our hands up high we're screaming
Whoa whoa oh .. whoa whoa oh

I'm not afraid
To make big mistakes
I'm not afraid
To fall flat on my face
I need to get this looked at
Need to get this looked at
I need some time to think
About what I've done
Oh!
One last thing before I go

With our hands up high we're screaming
Whoa whoa oh .. whoa whoa oh
And with our feet
We stomp a cadence for you

It's all free and that's real
It's all free, you said
I need to accept, I need forget I guess
I'm glad I got this looked at
Finally got this looked at
I'm so glad you came for me
Get this, get this right
Before we go

I am the one who needs you
I am the one who needs you
I am the one who needs you
