

Far-Less "Too Pretty"

Visit "[Too Pretty](#)" on [MotoLyrics.com](#)

She is an honest
And goodness kind of queen
And he is an honest
And one kind of king

Rich and beautiful
The perfect melody
For the music we make
And I hope this helps you
Through the lonely stages

Convince yourself that our only help is to belong
My only hope when all said and done is to be loved by
you
Convince yourself that our only help is to belong

She says love is
Like being on a team
If we can get through this
We'll conquer anything

Rich and beautiful
The perfect melody
For the music we make
And I hope this helps you
Through the lonely stages

Convince yourself that our only help is to belong
My only hope when all said and done is to be loved by
you
Convince yourself that our only help is to belong

The dead step in unison
Expose my flesh
The dead step in unison
You can keep my heart for this
