"Count In Fives"

Visit "[Count In Fives](#)" on MotoLyrics.com

Count
Yeah I count in fives.
I do it everytime.
And If another number confronts me
I will cut you in half.

Irrespective of the subject
I will make it apply,
no matter what the object
I will count in fives,
just tell me the location
I will stand outside...

Oh yeah,
if you give me too many
I will multiply.
Force too many into my hand and
I will not comprehend.

Oh yeah,
another number confronts me
and I force it to divide.
The first time with someone holding my hand. The
second, me holding it out.

Tally tally.

Oh yeah,

if you try to deceive me
I felt it burn in my hand.
Now watch the numbers run to me as
I count them in fives
