First of Iâ€™m a Christian and canâ€™t no man tell me different, Different from the world keep my game face spiritual wickedness in high places, Principalities, I pray that God make my dreams realities, I dreamt that Satan had to leave when the word is coming outta me, It goes forth like a sword with two edge, three headed beast, slicing of two of the three, The other is under my feet in small pieces Demons close but canâ€™t touch in the name of Jesus, Stand between the people and infirmities, devil got too much room itâ€™s our turn to breathe, Took too many shots itâ€™s our turn to squeeze, cold world Satan its your turn to freeze, We got the victory but you mistaken if you think its a breeze, Itâ€™s getting gully roll up ya sleeves, get with team on our knees in combat, Jesus retired but heâ€™s staging a comeback.

(Hook)

Holy Spirit pick us up we need to feel you stronger
Living this life but donâ€™t know how much longer till its over
Until we finish we gone finish the mission, raise my right hand my vow as a Christian Live and Die in the Name(2x)

They say we living in hell, life is like a prison living in jail, systemic sinning mechanisms got us living to fail. Without Christ how could the living prevail, an answer and explanation to that question shows how mind have derailed. Spare the details Iâ€™m not into self righteous motives, loaded with unfocused reason and deathâ€™s corrosion for the hopeless. My hope is that God will gain some attention, change some intentions, as long as we are human we will be slain as a Christian. The devil got his gun aimed in position, no matter how much time you got to rearrange your position you are a target. The beef has been started, souls have been martyred, so many have been dearly departed, but donâ€™t you understand the seas have been parted. We have power in his name period, to overcome any obstacle. Not talking just Hostyle Gospel talking all of you stand up, tell the devil he ainâ€™t got no power time to man up. God understands, us what we go through

he has went through, where we have been he has been
through he'll defend you stand tough. Grab your bible
cram up, clam up, ain't not time to clam up, we gone
fight with praise everybody put your hands up.

(Hook)

Holy Spirit pick us up we need to feel you stronger
Living this life but don't know how much longer till its
over Until we finish we gone finish the mission, raise
my right hand my vow as a Christian Live and Die in the
Name

The day I was save a monster was created, Satan
couldn't touch me so he had to get creative, Throwing
punches I don't feel 'em like I'm heavily sedated,
Made it through the blazes only to be, greeted by
traitors, Always behind like a trailer, looks like Satan
got my life sewn up like a tailor, But I break the stitch
when I make the switch to Christ, You still deal in yellow
flames I'm heating up to, white, Try to take me hell,
that's reason 'nuff to fight, I welcome night season
that's when I earn stripes, Slave in this world in the
spirit I'm a general Demons devils all evil in general,
Destroyed under the strength of my God, That's why
we go this hard, Reality is setting in Satan flee to the
direction the sun setting in, Saints stand up Jesus
coming back its time to rep again, Never walking by
sight, its faith we stepping in, Stepping out of bondage
to blessing, stronghold to strength, Divine intervention
stressing urgency of salvation, keep pressing pushing,
Christ pushing Christ.

(Hook)

Holy Spirit pick us up we need to feel you stronger
Living this life but don't know how much longer till its
over Until we finish we gone finish the mission, raise
my right hand my vow as a Christian Live and Die in the
Name
