"School Is Bullshit"

I got a thing for my education
Real learning has no vacation
It's prison prep for the young and you
Forced to learn more ways to follow more rules

School is bullshit
I don't need you to educate
I don't need you to pave my way
I don't need you're approval, k?
I don't need you to educate me

You pledge allegiance to a power great
I pledge to learn the truth about my own state
Even college is a boys' club - that's right
For the privileged and the rich and that's why
