Rain drain my play away  
Sun gun me down and burn me  
Nature hates me today  
My head distorts reality  
Madness just moved into my shadow  
Shine - I will not cry and I will not die no  
Shine - I will be there for me  
Shine - I will not cry and I will be mine  
I'll shine - shine  
Who waltzed me into this  
Am I now stuck here forever  
Luck just gave me a kiss  
then lashed me down with a leather strip  
Trying to learn to swim without any water  
Trying just to begin just when you're in for the  
slaughter  
Shine - I will not cry and I will not die no  
Shine - I will be there for me  
Shine - I'll be just fine if I stay all mine  
I'll shine - shine  
You will love me as a winner
