How work to keep you satisfied

A workman better sleep at night -
Too much - too much.
You want me seven days a week

To treat you right I'm far to weak -
Too much - too much.
Much more - much more - much more - much more.

Stop the way you waste my juice

There's no excuse and no amuse -
Too much - too much.
And if you want to save my life

You better are a restrained wife -
Too much - too much.
Much more - much more - much more - much more.

Stop the way you waste my juice

...

Much more - much more - much more - much more.
