I got the soul of a hippie  
Travel like a gypsy  
Strumming on my guitar  
To keep me going  
I find peace knowing  
Somewhere down the road  
This life set for me will no longer be in stone

Wildflowers grow as i walk  
And bluebirds sing as i talk  
I don't know where i'm headed to next  
But thank God I left before the sun sets

I got the soul of a hippie  
Travel like a gypsy  
Strumming on my guitar  
To keep me going  
I find peace knowing  
Somewhere down the road  
This life set for me will no longer be in stone

Well he couldn't hold me  
Nobody could  
I'm gonna do what I want  
When I think I should  
I'm tired of black  
And I'm tired of white  
I got my freedom dress on  
And it fits just right

I got the soul of a hippie  
Travel like a gypsy  
Strumming on my guitar  
To keep me going  
I find peace knowing  
Somewhere down the road  
This life set for me will no longer be in stone

No this life set for me will no longer be in stone
