I know a way out!\*  
If you catch my drift  
Hold it close to your heart  
Let's just breath  
So just count it off  
The worst is over  
At worst we standstill  
Through the night  
Spin it back now  
In through the out  
We want a nice clean fight  
No blood, no bite  
And when the end is near  
Let's just be frank  
Let it sit be still  
We'll me in the middle. Come on!  
Inside of me, it's hot as iron,  
I feel like I could pass in the night.  
Spin it back now  
In through the out  
We want a nice clean fight  
No blood, no bite  
And when the end is near  
Let's just be frank  
Let it sit be still  
We'll keep this world cold  
Meet in the middle, come on!
