There exists two worlds for you one is false and one is true  
I have lost my shirt my friends paranoid vision,  
my brain is mildew I lost reality long ago now I live in a  
Horrorshow!  
reality is a tightrope trick once fell,  
real beasts devour quick my fictional beasts are real to  
me my very thoughts

a caustic I lost reality long ago now I live in a  
Horrorshow!  
Truth, fiction, one and the same one is real,  
the other to blame I don't care what your bishops say  
truth  
shall eat the skull of the lame I lost reality long ago now  
I live in a Horrorshow!
