Dive down deeper than this  
Wide-eyed a wintergreen bliss-out  
Cool solid next to freezing  
Wild words that have no meaning

Such a deep love  
Such a strong kiss  
Such a deep love  
Such a strong kiss  
Never in love  
Is there a wrong kiss  
It's such a deep love

There's a wave and it breaks forever you know  
Woman deep and it's man deep  
There's a wave and it breaks much harder than this  
Like the sea when the world's asleep  
There's a wave and it breaks forever you know

Legal city no redress  
Wide-screen built to impress you  
Get down stoop to conquer  
Burn the phoenix and raise the songbird

Such a deep love  
Such a strong kiss  
Such a deep love  
Such a strong kiss  
Never in love  
Is there a wrong kiss  
It's such a deep love

There's a wave and it breaks forever you know  
Woman deep and it's man deep  
There's a wave and it breaks much harder than this  
Like the sea when the world's asleep  
There's a wave and it breaks forever you know  
Woman deep and it's man deep  
There's a wave and it breaks much harder than this  
Like the sea when the world's asleep  
There's a wave and it breaks forever you know

Now I got it I'm gonna keep it  
Work it up into a state secret  
Clean high next to heaven  
Some sins are god-given.

Such a deep love  
Such a strong kiss  
Such a deep love  
Such a strong kiss  
Never in love  
Is there a wrong kiss  
It's such a deep love

There's a wave and it breaks forever you know  
Woman deep and it's man deep  
There's a wave and it breaks much harder than this  
Like the sea when the world's asleep  
There's a wave and it breaks forever you know

There's a wave and it breaks forever you know  
Woman deep and it's man deep  
There's a wave and it breaks much harder than this  
Like the sea when the world's asleep
