Verse 1

Here I am
I made the same mistake
Broken again
By something so fake
So long, my good friend
You'll be back when you need me again

Chorus

I can't take this anymore(I can't take this anymore)
This is the last time for me(This is the last time)
So close but still so far(so close, so far away)
Your shoulder to cry on is all I'll ever be

Verse 2

This unsent letter to you
It's all I know and what you never knew
Goodbye, it won't be the same
As before, ever again

Say Goodbye

movie quote:

I never wanted this to end, guess I still don't

Chorus

I can't take this anymore(I can't take this anymore)
This is the last time for me(This is the last time)
So close but still so far(so close, so far away)
Your shoulder to cry on is all I'll ever be

Ever be(3x)
