

The Morning Light

I step outside into the light
The sun is bright I close my eyes
The summer caught me by surprise
And now I'm left here waiting
For you to tell me how it ends
If I could only get a kiss
I could make you take a risk
On a boy who wants this

And now the sun has sunk below
The evening wind now starts to blow
I catch the scent of your perfume
It lifts me higher than the moon
I'll be fine
If you stay by my side

Never felt this way in my whole life
Never had this feeling before tonight
Can't get you off my mind
Cuz you shine girl, oh you know you shine

Your eyes are brighter than the sun
They make me see that you're the one
Your smile takes my breath away
Leave me with nothing to say
You aren't like any other girl
That I've met in this whole world
You're so much than they can be
So won't you just please be with me
I'll be fine if you stay the night

Never felt this way in my whole life
Never had this feeling before tonight
Can't get you off my mind
Cuz you shine girl, oh you know you shine

And I give up forever to see the day
Where the two of us both could just walk away
Hand in hand

Never felt this way in my whole life,

Never had this feeling before tonight
Can't get you off my mind
Cuz shine girl, oh you know you shine

Never felt this way in my whole life
Never had this feeling before tonight
Can't get you off mind
Cuz shine girl, oh you know you shine
