"Modern Slavery"

Every life seems so peaceful but it is an everlasting
dispute

Everybody's got to take his position to fight for his
essential rights

(CHORUS) Pseudo-democracy - Modern slavery
The only way out - Is our cessation

Those ones who obtain the power use their right for
greedy shit
They are trying to exploit you better for you not to take
it

(CHORUS)

There is some better way of life so we better change
the way
Don't stand back like all the others who are left to their
own decay

Mankind needs a better existence no more weapon for
overkill
So much in the third world the people feel wretched
(They are standing weak and hill)

Don't support such a structure which only sees financial
aims
Anarchie youth must take its position they will make
their own claims
Fascist government wants you for army but it is your
choice to deny
Preparations for senseless war for this state I will not die

(CHORUS)

Those ones who obtain the power use their right for
greedy shit
They are trying to exploit you better for you not to take
it

(CHORUS)

Subjugated by law and order education and army
make you sick
They want you to be counted it is all a dirty trick

Preparations for senseless war for this state I will not die

Subjugated by law and order education and army
make you sick
They want you to be counted it is all a dirty trick

(CHORUS)

Those ones who obtain the power use their right for
greedy shit
They are trying to exploit you better for you not to take
it

(CHORUS)
