"Wondering And Waiting"

Visit "[Wondering And Waiting](#)" on MotoLyrics.com

I've watched my friends grow old on me
We're all stuck in the same old rut,
Mine's across the country

I've been asking when is it my turn?
Are all these dreams of mine
Just more than I deserve?

I've been wondering and waiting
Is there purpose on the road?
If everything is working for my good
Will I make it home?

I don't have much room to complain
The best things in life are free,
These bills somehow get paid

I know I'm living someone's dream
If time has taught me just one thing
It's to count on every blessing

I've been wondering and waiting
Is there purpose on the road?
If everything is working for my good
Will I make it home?
[x2]

(I wanna know, I need to know)
Is all this worth the time that it's taking
(I wanna know, I need to know)
I'm letting go, it's a chance in the making

I've been wondering and waiting
Is there purpose on the road?
If everything is working for my good
Will I make it home?
[x2]
