You are beautiful,  
The man your made of,  
And everything that drives you

You try so hard  
You try so damn hard  
You try and try but you just don't get it right

Hold your breath  
Darling  
Just hold your breath  
Cos you're at peace now  
Cos you're at peace now

Your calculator, it is dead,  
You just cant add these things in your head,  
You try so hard  
You try so damn hard  
You try and try but you just don't get it right

Hold your breath  
Darling  
Just hold your breath  
Cos you're at peace now  
Cos you're at peace now

Cos you're at peace now
