I've got a secret  
That I will take to my grave  
I am forsaken  
My hands are shaking  
Anticipating  
The rise and the fall  
It's inevitable  
You are...  
Un-touchable  
Intangible  
Everything and nothing more  
Than a ghost to me  
A memory, of a time before  
You had your way with me  
Lord knows I seen better days but the nights got a hold  
of me x2  
Save yourselves  
Come on baby, oh can't you see  
You can take the boy out of hell  
But you'll never get the hell out of me  
Get the hell out of me  
We can never overcome  
We pour ourselves into the sun  
A scorching revelry  
Between the devil and the deep blue sea  
She has no fury like the abyss  
That waits for you like a goodbye kiss  
And this  
This is love  
This is hell  
This is how it feels  
To destroy yourself  
The anchor it pulls us under  
The compass leads us on  
And I begin to wonder  
If we are ever going  
Home...  
I swear to god I will cut you out  
I will silence your voice  
To go without  
I swear to god I will cut you out

I will silence you all  
To go without
