It's 12 at night and she walks in the room
I could tell she's ready by the smell of her perfume
I'm so glad she's with me
1, 2, 3, 4 we're walking out the door.
And she's so sweet, she's got me wanting more
And I can't believe she's with me

(Chorus)

And time and time again I wonder where you been
And I can't seem to hold on till I can't catch my
breath
So take another sip
I'll kiss you on your lips and we'll start to fall in love
All over again

When the lights go out, and she looks at me
Strangled in the sheets
I know that she can see, that I know we were meant to
be
1, 2, 3, 4 what more could I adore?
And her eyes meet mine, it's time to hit the floor
And I can't believe she's with me, oh

(Chorus)

And time and time again I wonder where you been
And I can't seem to hold on till I can't catch my
breath
So take another sip
I'll kiss you on your lips and we'll start to fall in love
All over again

And everybody said it won't be long
And everybody told me you'd be gone
But I'm still here right with you dear
And they were wrong, they were wrong

And time and time again I wonder where you been
And I can't seem to hold on
