

Hello Astronaut "My Best Friend"

Visit "[My Best Friend](#)" on MotoLyrics.com

And I know that sometimes it's hard to feel
The love we've got here, tonight
You were here for all the fights
My sickest nights, you helped me out
And it's hard to describe with words
Just how much you mean to me

And what this means to me, you'll never know
Don't go, I need you by my side tonight

And I know that sometimes words can hurt
But put all that aside
We don't need to fight
This is getting the best of me

Ohhh

And what this means to me, you'll never know
Don't go, I need you by my side tonight
