She lets her darkness fall

By day we both have different ends

She gives up all her desires

And fears in the night

But it was just a vanished site

Through this darkness I'll be forgotten

Then I see my losses

When I close my eyes  
I walk in dark

I walk in fear

That I'll just disappear

All of the insights are sure

When I walk out the door

But it was just a vanished sight

Nothing is ever true

Whenever I have fears  
I think of you  
Now our revels have ended

And you're melted into the air

The darkness heals my beating mind

And it goes away through the darkness of the night,  
Loneliness is how I'm revealed

Feeling that I'll disappear

In this pitch black night  
Nobody sees when I ride by  
I dream until my wrists go wild  
And with the fire burning within  
And with you and me  
And this dream we're living in  
And the rain came tumbling down..
