I've been hangin on the corners

Still hiding from the pain

I don't care of all your talk

I dont care of the things you say
In the stormy night

Of straining

Lying beneath the sky

Raining

Down you come

Like something in a trance

And you hide beneath the streets, dim expanse

And you cross yourself away from fear
Nothing is forgiven for the things you've done

But I aint' looking for forgiveness out of anyone

Now your eyes are drowned turned towards the light

And i hear your mournful cries in the night

But strangely, the silence broke

The loud silence

That never leaves me alone
Now it's either you don't have the guts

And it's either you live in fear
And its either you live in pain

And you think it'll just go away
But the hearts that win

Your eyes that glow
The ones that lose, the silence broke
And all that's best
Of dark and bright
My heart is dark
And your eyes are the light
And all the things
Dark and strange
Your beauty is passed change
And on either side, left or right
The middle is where I lie
This promise that I make
Here I swear to you
I'm sending my love on the wire
But my most quiet need, I want to be wild
But we're in this darkness, so blind
And it just haunts me girl!
